Discovery Program
We are seeking candidates with a record of high academic achievement as well as excellent analytical and problem-solving skills. Strong interpersonal and communication skills, an ability to work in a collaborative team environment, and prior technical internship or co-op experience are also required. Candidates should demonstrate high levels of initiative, leadership, and a strong drive to learn.

How to Apply
Qualified graduates who are interested in this unique opportunity at APL may apply online by visiting the Discovery Program page: http://www.jhuapl.edu/employment/college/discoveryprogram.asp

Who Is Eligible?
The program is open to bachelor’s and master’s graduates in aerospace engineering, computer engineering, computer science, electrical engineering, mathematics, physics, systems engineering, and related disciplines who have technical interests in one or more of the following areas:

- Aerospace/aeronautics
- Algorithm development/evaluation
- Communication systems (acoustics, wireless, and satellite)
- Controls systems
- Cyber security/information assurance
- Modeling and simulation
- Networking technologies
- Signal/image processing
- Software design/development/testing
**APL** is located midway between Washington and Baltimore, with convenient access to major highways and local attractions. See our Visitor’s Guide for details.
