The Johns Hopkins University  
Applied Physics Laboratory  
Laurel, Maryland  

PARKING RULES AND REGULATIONS  

Usually, there are sufficient parking spaces to accommodate everyone. The west side of the facility has adequate spaces in Lots A through F, and the east side of the facility has adequate spaces in Lots H, J1, K and L, (as indicated on the back cover of the “APL Telephone Directory”). You are expected to use them in accordance with the following rules. Failure to comply with these rules when adequate parking is available may result in your vehicle being towed at your own risk and at a cost to you of $38.00.

No Parking  
- Do Not park along red curbing (fire lane).  
- Do Not block access roads, driveways or sidewalk ramps.  
- Do Not park in “Disabled” or “Reserved” spaces unless authorized.  
- Parking by staff or resident contractors is not permitted in Visitor Lots V-1 and V-3 except where specifically designated.

Special Parking  
- Designated areas indicate reserved parking for registered Car Pools. These spaces are reserved until 8:30 a.m. on regular Laboratory workdays.  
- 5 minute parking is permitted in front of the R. E. Gibson Library.

All vehicles in violation will be towed to a retention area northwest of Building 10 (AATDL). The procedure to retrieve your vehicle is as follows:  

1. The Security Force will notify the owner that their vehicle was towed and why.  

2. Report to the Security Office, Bldg. 7-275. Pay $38.00 towing fee. If after 5:00 p.m., or if you do not have the towing fee, you will be required to complete a promissory note located in Building 1-S8.  

3. A member of the Security Force will transport you to the retention area where you can retrieve your vehicle.
