COVID-19 Environmental Health and Safety Guidelines for Visitors

Visitors to the Johns Hopkins Applied Physics Laboratory (APL) should be aware of the following restrictions and guidelines for visits:

- Beginning October 16, 2021:
  - Visitors with a take-home picture badge (not required to check in on arrival) must be vaccinated to enter the main campus and other APL facilities. These visitors can use this FedRAMP-certified secure form to enter proof of their vaccination status.
  - Visitors who are required to check in for a daily badge must attest to being fully vaccinated or show a negative COVID-19 test result (from within 72 hours) to enter the main campus and other APL facilities. They should complete this survey within a week of their expected visit; confirmation for access is valid for seven days.
- Face coverings are required on campus for all people, regardless of vaccination status, in any indoor area.
- Unvaccinated individuals are also required to maintain 6 feet of separation from others at all times, and to wear masks outdoors when 6 feet of separation cannot be maintained.
- All persons visiting the Laboratory need to be free from any illness or COVID-like symptoms and must not have been directed to quarantine for any reason within the 10 days before arriving at APL.
- To avoid delays and streamline the entry process, all visitors should check with their APL hosts about advance registration.

Mandatory COVID-19 Questionnaire for All Visitors

**Question 1:** Have you tested positive for COVID-19 in the past 14 days?

**Question 2:** Are you currently under a government or physician’s directive to self-quarantine for any reason, including a suspected COVID-19 infection, exposure to a COVID-19 case, or because of travel?

**Question 3:** Have you experienced ANY of the following symptoms of COVID-19 infection in the last 10 days?

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Unusual headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If your answer is “yes” to any of these questions, per APL policy and current state and health agency guidance, you will not be allowed access to the facility.
