

BASIC SCIENCE: Further Reading

VOLUME 1

- 4 Research Center History
- 8 The Milton S. Eisenhower Research Center: Its Objectives and Activities
- 33 The Structure of Flames
- 35 The Search for HO₂
- 38 High Vacuum Scanning Electron Microscopy as a Tool in Surface Analysis
- 45 Secondary Ion Mass Spectrometry for the Study of Solids

Kershner, R. B.

Foner, S. N., and Hart, R. W.
Berl, W. G.
Berl, W. G.

Bargeron, C. B.
Satkiewicz, F. G.

VOLUME 2

- 153 Spectroscopy of Porphyrins
- 196 Energy Transfer Processes Accompanying Laser Excitation of Hematoporphyrin in Various Solvents

Kim, B. F., and Bohandy, J.

Parker, J. G., and Stanbro, W. D.

VOLUME 5

- 51 Electron Current Image Diffraction from Crystal Surfaces at Low Energies
- 56 Drag Reduction Studies by Compliant Surfaces and Surface-Active Substances
- 167 Visual Perception of Structured Symbols
- 305 An Experimental Test of the Quantum Theory

Bargeron, C. B., Jette, A. N., and Nall, B. H.

Taylor, T. D., and Hurdis, D. A.
Hamill, B. W.
Franson, J. D., and Potocki, K. A.

VOLUME 7

- 39 Thermal Diffusion in Ionized Gases and Planetary and Solar Processes
- 58 Electromagnetic Scattering Theory
- 92 Magnetophotoselective Photochemistry in Solids
- 129 Molecular Electronics
- 142 Structural Aspects of Organic Superconductors
- 152 Random Magnets
- 165 Surface Science Program: Research and Applications to APL Problems
- 187 Materials and Microstructure
- 209 Development of Ultrastable Filters and Lasers for Solar Seismology
- 308 Erosion Studies on Solar Max Samples of Kapton and Teflon

Monchick, L.
Bird, J. F., and Farrell, R. A.
Adrian, F. J., Bohandy, J., and Kim, B. F.
Potember, R. S., Hoffman, R. C., and Poehler, T. O.
Kistenmacher, T. J.
Moorjani, K.
Benson, R. C., Bargeron, C. B., deHaas, N., Givens, R. B., Jette, A. N., Nall, B. H., Phillips, T. E., and Satkiewicz, F. G.
Murphy, J. C., Aamodi, L. C., Satkiewicz, F. G., Givens, R. B., and Zarriello, P. R.

Rust, D. M., Kunski, R., and Cohn, R. F.
Fristrom, R. M., Benson, R. C., Bargeron, C. B., Phillips, T. E., Vest, C. E., Hoshall, C. H., Givens, R. B., Satkiewicz, F. G., and Uy, O. M.
Hunter, L. W.

VOLUME 8

- 363 Infrared and Millimeter-Wavelength Absorption by Atmospheric Water Vapor
- 370 Performance of Optical Sensors in Hypersonic Flight
- 386 Detection of Propagation from a Heated Ionosphere

Thomas, M. E.
Tropf, W. J., Thomas, M. E., Harris, T. J., and Lutz, S. A.
Lunnen, R. J., Jr.

VOLUME 9

- 110 A Coupled-Mode Model for the Propagation of Millimeter Electromagnetic Waves in a Tropospheric Duct Overlying a Randomly Rough Sea Surface
- 121 The Vertical Angle of Arrival of High-Frequency Signals Propagating from Thule to Goose Bay
- 131 Experimental Evaluation of the Propagation of High-Frequency Radar Signals in a Moderately Disturbed High-Latitude Ionosphere
- 174 High-Temperature Superconducting Thin Films
- 189 Molecular Materials for Nonlinear Optics

Boyles, C. A., and Dozier, L. B.

Baker, K. B., and Greenwald, R. A.

Greenwald, R. A., Baker, K. B., and Ruohoniemi, J. M.
Moorjani, K., Adrian, F. J., Kim, B. F., Bohandy, J., Phillips, T. E., Green, W. J., Agostinelli, E., and Boone, B. G.
Potember, R. S., Hoffman, R. C., Stetyick, K. A., Murphy, R. A., and Speck, K. R.

- 221 Thermal Techniques for Nondestructive Characterization of Layered Structures and Interfaces
- 315 Optics at the Applied Physics Laboratory
- 319 Optical Design at APL
- 328 The Infrared Properties of Polar Crystals
- 339 Temperature Remote Sensing Using a Tunable Diode Laser
- 349 An Optical Instrument for Measuring Solar Magnetism

Murphy, J. C., Maclachlan, J. W., and Aamodt, L. C.
Tropf, W. J.
Harris, T. J.
Thomas, M. E., and Joseph, R. I.
Gearhart, S. A., and Thomas, M. E.
Rust, D. M., and O'Byrne, J. W.

VOLUME 10

- 3 Metal Nitride Semiconductors for Optical Applications

Bryden, W. A., Kistenmacher, T. J., Wickenden, D. K.,
Morgan, J. S., Wickenden, A. E., Ecelberger, S. A.,
and Poehler, T. O.
